Happy New Year!

As you can see from our new photo, my daughter Natalie has cut her hair short for 2010. She was excited to take a new photo to show off her new hair style. When was the last time you updated your look? With that in mind, I am excited about our Head Shot Party on February 27th. Read on to learn more about this fun and relaxing way to get a great digital professional photo.

We're also offering a 10% discount on the pre-purchase of our Little Leeps Package when purchased by January 15th! This is a great gift for yourself or someone you know that is expecting. This package captures the miraculous changes of that first year, and offers a real savings of \$250 or more over individually purchased sessions and portraits.

Wishing you much joy in 2010!

With the explosion of on-line tools like your website, Twitter, Facebook, Linked In, blogs and other advertising mediums, a professional photograph is more essential, and useful, than ever. Like it or not, some people do judge a book by its cover and you need to put your best face forward.

A portrait party is an exciting opportunity for you and your friends to have professional portraits taken. Enjoy some food, fun and a drink while you attend your very own portrait session! Network with other professionals in a relaxed atmosphere while we capture you at your best. We'll have a makeup artist on hand for a make-over or quick touch ups so you'll be "camera ready".

Digital proofs from the session will be posted on line so that you can decide which photo is best for your needs. Your selected portrait will be retouched to ensure you look your best! A high quality digital image of your choice will then be e-mailed to you - it's that simple!

This special headshot session is only \$50.00!

You know your job - you are confident and qualified. Don't you think you deserve to look your best as well? We look forward to helping you put your best face forward in this digital age!
